28 February 1955

Mr. W. Park Armstrong
Special Assistant--Intelligence
Department of State
Washington 25, D. C.

Dear Park:

I regret the delay which has befallen our discussion on the production of intelligence on international communism, a piece of unfinished business from the USIA Survey. As you will note from the attached paper the problem has turned out to be more complicated than I had at first anticipated. I only hope that I have not made it more so by my thinking through the problem on paper.

This paper with the addition of some comments which are purely internal has been read by both General Cabell and Mr. Dulles, as well as by their principal assistants who would be concerned with this subject. There seems to be a general feeling that the solutions proposed, if carried out, would greatly improve the Government's situation on this subject.

Would you be good enough to give me a call when you have completed reading this paper, perhaps within the next week or so, so that we may arrange a time to get together to discuss the proposals of this paper and to work out a solution to this problem.

25X1A

Special Assistant to the Director
for Planning and Coordination
